- Kasungu National Park guided tour
- Travel to Lilongwe

FRI JULY 12

- Depart Malawi

Discover and Learn in an international professional development opportunity that allows Canadian educators to interact with, learn from, and encourage Christian educators from around the world.

We're inviting you to join us in Malawi in July 2024 for a ten-day experience. There, you will interact with schools and leaders who focus primarily on supporting students with special needs.

Over the last year, Canadian Christian schools have been championing special education in Malawi through The Warm Heart Project – a two-year campaign focused on supporting students with visual and hearing impairment. This trip is your opportunity to meet teachers, students, and community leaders who are using Christ-centred education to cultivate a sense of belonging for all children in Malawi.

Cost: The cost of Discover and Learn is approximately \$4,000 CAD per person.

Funds will cover travel logistics including airfare, in-country transportation, food, accommodations, and cultural activities.

These funds are not eligible for a tax receipt.
